Second Stage Studio

Private Voice Lessons

***One Hour Private Voice Lesson:
\$ 40.00***

Voice Lessons combine the traditional style of vocal instruction with music, poetry and visual arts. Classes will focus on vocal technique: practicing, vocalizing and breathing.

Technique will be transferred from vocalizes to songs emphasizing vocal health, beauty of tone and effective musical interpretation. Song anthology will be a mixture of folk songs, songs from movies and musical theatre, art songs, as well as contemporary styles of music and student work.

Musical interpretation instruction will be based on The Performance Cycle of Learning, an instructional model developed by The Arts Literacy Project

through the Education Department at Brown University in accordance with research clearly demonstrating the strong casual link between arts-learning and academic performance.

The Performance Cycle provides teachers and artists with the framework for engaging students in a process of deep comprehension by building a classroom community of learners that centers on a text.

Classes will also include basic music theory, and group yoga/breathing techniques.

Students will be encouraged to write their own lyrics and tell their own stories.

CD Recordings of students voice, as well as video's of performance/ rehearsals will be made and used for teaching purposes.

After one to two years of instruction, students will plan and star in their own solo show here in the performance space at Second Stage Studio.

Second Stage Studio

is designed to create a warm, friendly and engaging environment inviting each and everyone who enters to become inspired; to let go and let the spirit of creativity take hold of them. We believe that the creative arts are essential elements in education, in learning, in developing, in maturing. Students at Second Stage Studio are learning to express themselves via the written and spoken word taking the shape of prose, poetry, song, art and performance. They communicate; they contemplate; they collaborate; they create. They are Student Artists. They have been encouraged to tell their own stories and they are.

We are learning from them.
